Sonoma County Fusion/C4FM Net Script

Good Evening, my name is _____ , call sign _____ and I am the net control station for this evening's Sonoma County (Yaesu System) Fusion Net. This is a directed Net; please direct all traffic through the Net Control station.

Emergency traffic always has priority over any other traffic. Is there any emergency traffic at this time?

This net takes place on Thursdays at 7:00 PM Pacific Time on the K6CSR repeater at 441.650 MHz, courtesy of Santa Rosa, and using node #51370.   All radio amateurs with Fusion-capable equipment are invited and encouraged to participate.

If the repeater should fail, tune your radio to the output frequency of the repeater and the net will continue in simplex mode.

The purpose of this net is to practice using and learning about Fusion for Amateur Radio Operators, as well as provide other news of interest to radio amateurs. (Optional:) The question of the week is: _____ and I will take your answers after check-in.

I will now begin taking check-ins. When transmitting, please give your first name and callsign and if you have any traffic. For example, I might say, "this is _____, _____ and I have no traffic. After check-ins, I will ask those with traffic for their traffic first. Then I will call each station in turn for any comments or discussion. Feel free to discuss fusion or any non-Fusion topic. So, any stations wishing to check in, please come now, one at a time. This is *[Callsign, Net Control]*.

Net Control acknowledges _____, _____. [I will ask for your traffic later.]

FIRST NAME	CALL SIGN	TRAFFIC?

We will now go back through the list. I will call each station with traffic for their traffic. Then, starting with the first station that checked-in, I will call each station in turn, and they can ask questions, or direct comments to anyone on the net. Questions and comments can be on any subject, not just Fusion. (Also, please give your response to the question of the week, which is _____.)

I will now take late check-ins. Any stations wishing to check in, please come now with your first name and callsign, and if you have traffic. This is [*Callsign, Net Control*].

Would anyone on the net like to take or volunteer for net control for next week?

This is _____, _____ Net Control for the Sonoma County Fusion Net. I want to personally thank all of the stations that were able to join us and participate in this week's net. I encourage you to tell your friends and other interested hams about this net, which is open to any and all radio amateurs that can access Fusion.

I am turning the repeater back to normal traffic. The net is now closed. This is _____.
